Marl Pit is a small water with a large head of Crucian Carp of which one can get a good catch in a very short time. It also has a stock of Tench in the 1lb to 2lb bracket but larger Tench have been caught. Larger Carp have been hooked but do seem to evade capture as they seem to know every snag intimately. Some large Rudd have been caught in the last few seasons with floating caster. It has a reasonable depth but only about 10 swims. A pleasant days fishing can be enjoyed with parking very close to the water.
